

June 20, 2026

To Whom It May Concern,

I am pleased to endorse Tran Trang Thuy, a Programme Executive of the Vietnamese Youth Alliance in Singapore (VNVA). VNVA is a student-led organisation representing Vietnamese students in Singapore under the patronage of the Embassy of Vietnam.

From the outset, Thuy distinguished herself through her reliability, professionalism, and strong sense of ownership. As a Programme Executive, she played a key role in designing and delivering community initiatives. Her ability to translate ideas into well-executed programmes reflects a high level of maturity and strategic thinking.

She consistently exceeded expectations and took on increasing responsibility within the organisation. Throughout her time with VNVA, Thuy served as Lead Organiser of Concert 2026: NHIP and Career Fair 2026: Prelude, and Programme Team Lead for Singapore Study Abroad Dream Webinar 2025. Through these initiatives, she led programmes that engaged over 600 students, young professionals, volunteers, and community members.

Thuy consistently demonstrated initiative, sound judgement, and attention to detail in leading large-scale community initiatives. She showed maturity in stakeholder management, communicating effectively with speakers, performers, sponsors, and partner organisations while representing VNVA professionally in external engagements. Her willingness to support others and recognise their contributions helped foster a collaborative team culture.

During preparations for the VNVA Concert 2026: NHIP, when a planned performer was unexpectedly unable to travel to Singapore, Thuy proactively coordinated alternative arrangements and communicated effectively with stakeholders to minimise disruption. She remained calm, solution-oriented, and focused on ensuring the event's success. Her ability to navigate unforeseen challenges while maintaining team momentum reflects leadership maturity beyond her years.

I recommend Tran Trang Thuy for selective academic or leadership opportunities. Over time, I observed her develop from a capable contributor into a proactive leader who could independently manage teams, stakeholders, and large-scale initiatives from conception to execution. Her strong performance and dependability led to her being repeatedly entrusted with responsibilities beyond her formal role. I am confident she will continue to make meaningful contributions wherever she chooses to serve and lead.

Sincerely,

Nguyen Thi Xuan Mai
President
